

Novelia[®]

**With Novelia[®], 0% preservatives,
100 % eye protection!**

Our multidose eyedropper
for preservative-free formulations

Nemera

Our multidose closing tip system avoids the need for preservatives in the drug and prevents bacterial contamination over the duration of treatment.

The Novelia® platform includes a broad range of configurations to accommodate all formulations.

Bottle

- LPDE (in white and transparent)
- PP (5ml & 11ml) in development
- Novelia® BFS (Blow-Fill-Seal) allowing unique bottle shapes

Flow control

- **PureFlow® 10**
very liquid formulations
(viscosity 1-10cP)
- **PureFlow® 200**
liquid formulations
(viscosity 10-200cP)
- **PureFlow® 1500**
viscous formulations
(viscosity 200-1500cP)

Drop size

- Standard drop size:
40µl with water
- 5 additional drop sizes
(between 28µl and 53µl)

Nemera designed Novelia® Vented Cap to address the challenges for highly sticky formulations.

This new variant removes and dries the remaining liquid on the dropper tip.

Patients prefer Novelia®

4 user studies have been conducted between 2009 and 2018 with a total of 230 people interviewed (120 in Europe / 110 in the US) including senior users with chronic eye disease.

Novelia® was the preferred PFMD eye dropper.

The preferred features mentioned by patients are:

- Intuitive opening (screw cap)
- Easy to use, ergonomic
- Blue tip feature to better target the eye
- Easy to deliver drops
- Easy to hold / handle
- Adapted to “on-the-go” lifestyle with a tight screw-cap (the cap cannot come off), no leakage possible

**Today, Novelia®
is used by patients
across 4 continents for
packaging of medical
devices, over the counter
and prescription products**

43%
of patients
think that Novelia®
would enhance
compliance over
their current
treatment

76%
of patients
interviewed
preferred
Novelia®
