## Brand new state-of-the-art Nemera offices inaugurated in Lyon

Located in the bio district of Gerland, the BREEAM certified collaborative space will house Nemera's headquarters & European innovation teams.

Morning coffee on the rooftop taking in a view of beautiful Lyon, a modern mix of open-plan designs, quiet areas, lots of collaborative space and state-of-the-art technology: just some of the features of Nemera's brand new premises in Lyon, developed from the ground up by and for the Nemera teams.

*"We're excited to bring our teams together in such a great environment. The best thing about our new offices is how reflective of our culture they are - warm, welcoming and built as a team. This strategic move brings us closer to our ecosystem - customers, academic institutions and other healthcare stakeholders. A new chapter for Nemera begins with this change further strengthening its commitment to bringing superior value to customers and patients" said Marc Hämel, CEO of Nemera.*

Elizabeth de Longeaux, Vice President of Human Resources said, *"Our new offices are being unveiled at a time when a lot of companies are navigating how much and what kind of spaces, they'll need post-COVID. Our top priority was to create offices where our teams feel at their best and are most comfortable to work. It's their insights that helped us craft offices adapted to their needs. And to see the positive reaction of the teams discovering their new offices was the best gift ever."*

### About Nemera

As a world-leading drug delivery device solutions provider, our purpose of putting patients first enables us to design and manufacture devices that maximize treatment efficacy.

We are a holistic partner and help our customers succeed in the sprint to market of their combination products. From early device strategy to state-of-the-art manufacturing, we're committed to the highest quality standards.

Agile and open-minded, we work with our customers as colleagues. Together, we go the extra mile to fulfill our mission. Get in touch with us at: [Nemera | We put patients first](#)
