

# *Nemera*

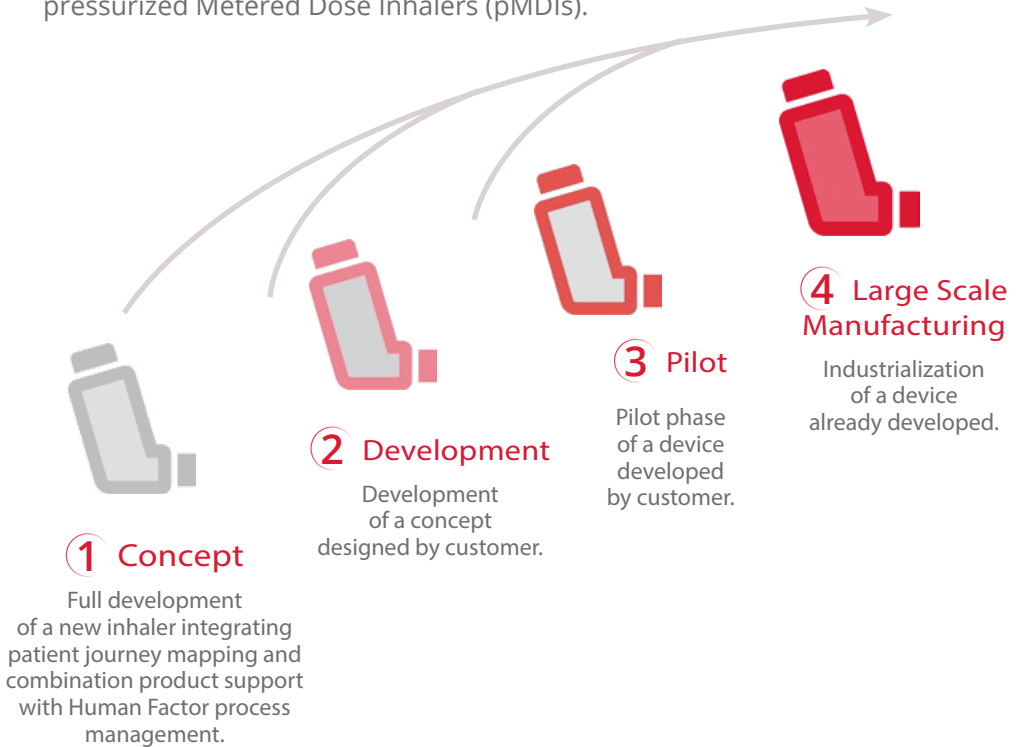

**A trusted partner in inhalation  
and nasal combination products  
& services**

# Our long-standing expertise in development and manufacturing of inhalation devices allows us to accompany you from idea to large scale manufacturing.

Nemera is a leader in contract manufacturing for Dry Powder Inhalers (DPIs).

We also manufacture dose counters and actuators for pressurized Metered Dose Inhalers (pMDIs).

**+ 20 million** patients rely everyday on inhalers manufactured by Nemera.

**+ One billion** inhalation devices manufactured and used by asthma & COPD patients.

# Thanks to our expertise in sprays, we leverage cutting-edge pump technologies that improve patient experience and adherence.

From commercial references to concept devices, Nemera offers various solutions for ENT delivery:

Nasal pumps  
(Advancia<sup>®</sup>,  
bioequivalence, SP  
range)

Child Resistance Solutions

Concept electronic  
devices

RetroNose™ is a pMDI concept device that targets nasal drug delivery through oral administration.

**RetroNose™ helps enhance therapeutic efficacy of your nasal drug with a better deposition.**

# We are part of RDD Digital

The RDD conference will go digital for the first time. Nemera is proud to be a sponsor of RDD Digital. We are also participating and presenting 2 posters.
